# Storm Cloud Development

---

**Project CM**  
**UC: Logout**

**Version 1.0**

Project CM	Version: 1.0
UC: Logout	Date: 09/Apr/2014

## Revision History

Date	Version	Description	Author
09/Apr/2014	1.0	Initial UC description	Storm Cloud Development

Project CM	Version: 1.0
UC: Logout	Date: 09/Apr/2014

## Table of Contents

1.	Use-Case logout	4
1.1	Brief Description	4
1.2	Stored data	4
2.	Flow of Events	4
3.	Special Requirements	5
4.	Preconditions	5
5.	Postconditions	5
6.	Extension Points	5
7.	Cucumber test scenario	5
8.	Mockups	5
9.	Function Points	6

Project CM	Version: 1.0
UC: Logout	Date: 09/Apr/2014

## UC: Logout

### 1. Use-Case logout

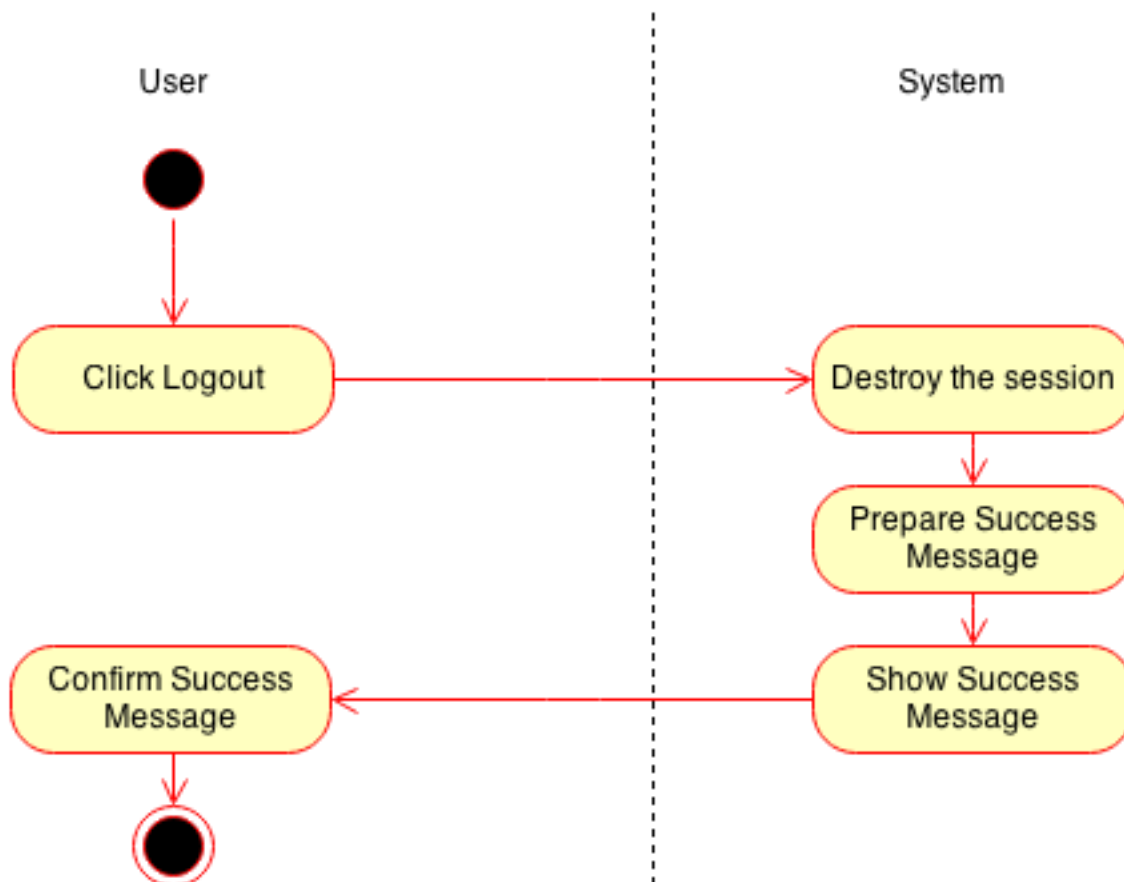

#### 1.1 Brief Description

The use case logout is for destroying the session of the user. He clicks logout and is not able to use any sites which require a logged in user.

#### 1.2 Stored data

None

### 2. Flow of Events

Project CM	Version: 1.0
UC: Logout	Date: 09/Apr/2014

### **3. Special Requirements**

n/a

### **4. Preconditions**

The user must be logged in.

### **5. Postconditions**

The user is not logged in anymore.

### **6. Extension Points**

n/a

### **7. Cucumber test scenario**

n/a

### **8. Mockups**

n/a

Project CM	Version: 1.0
UC: Logout	Date: 09/Apr/2014

## 9. Function Points

Below you can see the function point calculation for this use case.

	Logout
<b>Domain Characteristic Table</b>	
Number of User Input	1 Simple
Number of User Outputs	1 Simple
Number of User Inquiries	0 Simple
Number of Files	1 Simple
Number of External Interfaces	1 Simple
<b>Complexity Adjustment Table</b>	
Does the system require reliable backup and recovery?	0
Are data communications required?	3
Are there distributed processing functions?	0
Is performance critical?	0
Will the system run in an existing, heavily utilized operational environment?	0
Does the system require on-line data entry?	5
Does the on-line data entry require the input transaction to be built over multiple screens or operations?	1
Are the master files updated on-line?	0
Are the inputs, outputs, files or inquiries complex?	0
Is the internal processing complex?	0
Is the code to be designed reusable?	1
Are conversion and installation included in the design?	0
Is the system designed for multiple installations in different organizations?	0
Is the application designed to facilitate change and ease of use by the user?	0
<b>Function Points</b>	<b>14</b>
