UC: manage calendars

1. Use-Case Name

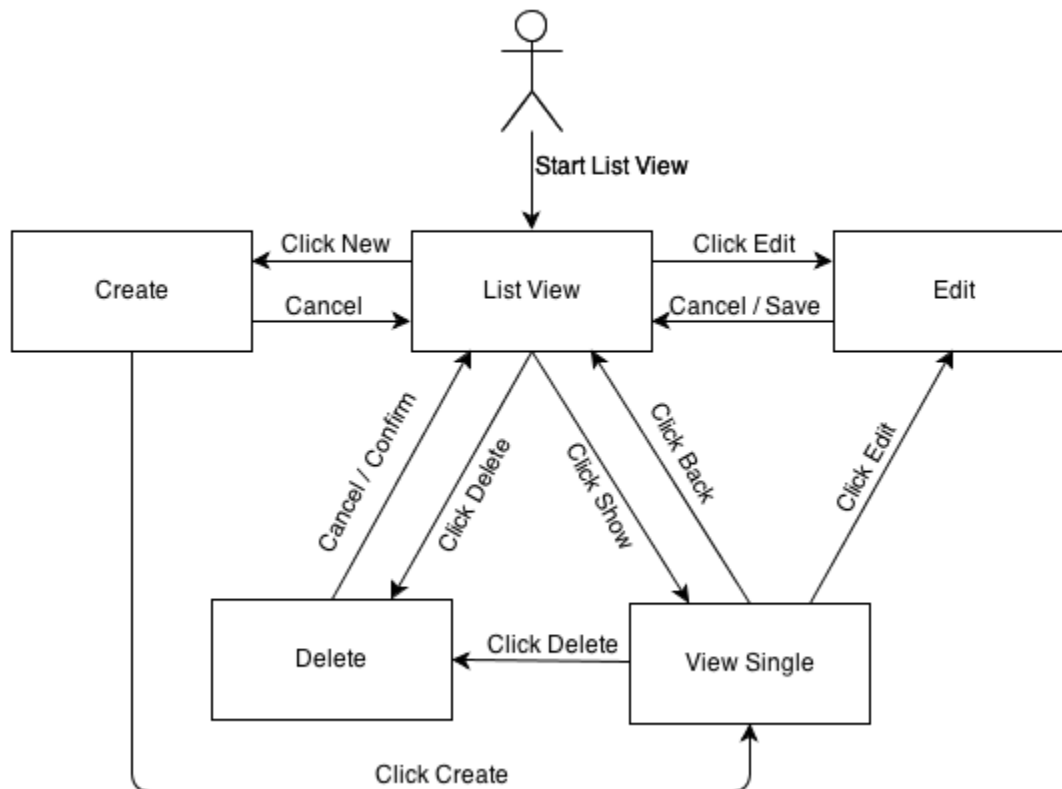

1.1 Brief Description

The user can create, edit and delete calendars if he is an owner of this calendar. As owner he can permit other users to view his calendar, edit and create new appointments or act as owner. He is also able to remove these rights.

2. Flow of Events

2.1 Screen Flow

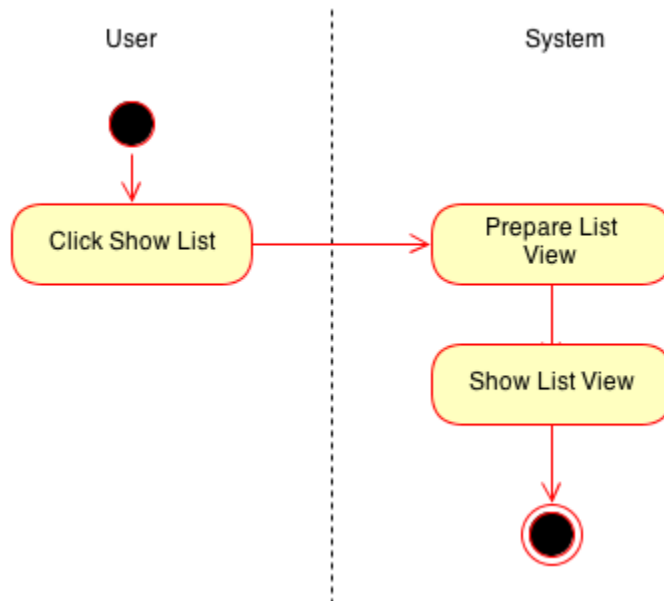

The picture shows the screen flow of the CRUD for managing the calendars.

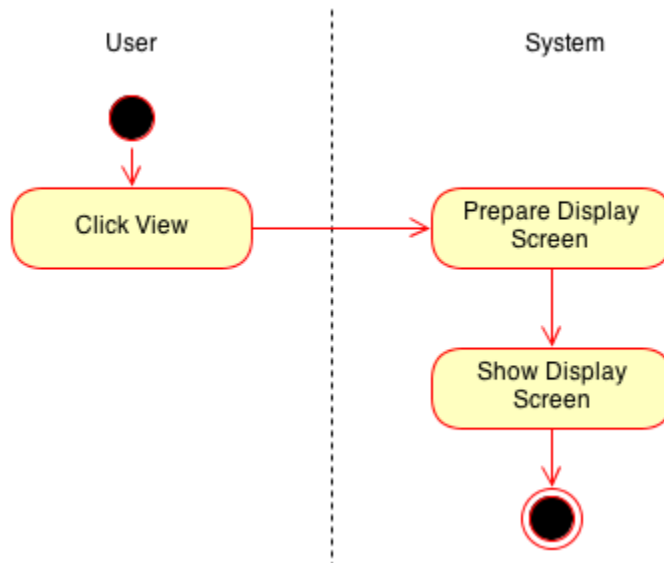

Project CM	Version: 1.0
UC: manage calendars	Date: 17/Oct/2013
